

- Let's start the game immediately:*
- All players must complete the entire row of their grid by finding a word for each category.*
- Example with the letter C.*
- Names: Charles*
- Things: Clothes*
- Cities: Cambridge*
- Fruits: Cherry*

***-The first player who finishes, covers his own grid and starts counting for 20 seconds.***

***-At the end of the countdown, all other players stop and calculate points.***

***-Each word scores a score that can be:***

***-10 points,if the word is correct and no other player has used it in the same game.***

***-5 points,if the correct word was used by another player.***

***-0 points, if it is wrong.***

# *Hopscotch Game*

***Hopscotch game is one of the most ancient and popular playground games in the world .***

***it is called in several ways : row, world, paradise, week or bell , these are just some of the different names associated with it .***

***You only need a little stone and a chalk and you'll have lots of fun.***

*Hopscotch game is very ancient and it seems to be the allegorical representation of an old astrological belief, according to which the soul or the pebble, starting from the earth, arrives through intermediate stages to paradise.*

*Anyway, it has been documented since the times of ancient Rome,*

*where it was known as the «claudus», or the «lame».*
